EXPERIENCE

BLACKBERRY | WEB DEVELOPER
January 2022 - December 2022

- Contributed to front-end development within a large team, completing 10+ user interface components with React.
- Assisted in improving cross-device compatibility of the website.
- Collaborated with the quality assurance team to identify and resolve 50+ front-end bugs and issues.
- Developed a comprehensive documentation repository to support onboarding and training of future interns.

CANADIAN INTERNATIONAL SPORTS CENTER | WEB DEVELOPER II
March 2021 – December 2021

- Developed a user-friendly web-based platform for event registration and management, streamlining the process.
- Integrated third-party APIs for payment processing and communication.
- Optimized the center's internal systems by implementing automated data processing and analytics, improving efficiency.
- Collaborated with the IT team to ensure the platform's security and data privacy, implementing industry best practices.

STRELKA.TECH | WEB DEVELOPER I
April 2019 – November 2020

- Developed 3 full-stack web applications using React, Node.js, and Python, contributing to successful project completion.
- Assisted in implementing microservices architecture in 2 projects, supporting the team in reducing development time.
- Participated in Agile development processes, quickly adapting to the methodology.
- Collaborated in designing and developing 5 RESTful APIs, helping to improve application interoperability.

PROJECTS

WRAPUPS - TACKLING FOOD WASTE IN RUSSIA | REACT NATIVE, NODE.JS, EXPRESS
2023

- Developed a food-waste reduction app, for the Russian market, connecting consumers with local food establishments offering surplus food at reduced prices.

DOSTOVOZ - CONVERSATIONAL AI FOR UZBEK LANGUAGE | REACT, DJANGO
2023

- Developed an Uzbek-language chatbot, DostOvoz, enabling users to interact in Uzbek and receive AI-powered responses based on ChatGPT.

MINECRAFT - INSPIRED VOXEL WORLD WITH THREE.JS | THREE.JS
2023

- Created a browser-based voxel world using Three.js. Developed an environment with five distinct block textures and a flat landscape. Implemented interactive block placement and removal mechanics, providing users with a creative and immersive experience. Check out minecraft.akamalov.com!

SKILLS

LANGUAGES

JavaScript • TypeScript • Python • SQL

FRAMEWORKS

React • Redux • Node.js • Three.js

TOOLS/PLATFORMS

Figma • Git • ESLint • Jest • Strapi • Asana

EDUCATION

ALGONQUIN COLLEGE
DIPLOMA OF EDUCATION
Jan 2021 - December 2022
Computer Programming
Cum. GPA: 3.31 / 4.0

POLISH-JAPANESE ACADEMY OF INFORMATION TECHNOLOGY
INFORMATION TECHNOLOGY
1 year

LANGUAGES

NATIVE OR BILINGUAL
English, French, Russian

PROFESSIONAL
Spanish, Uzbek, Tajik
